Support vulnerable communities in Maldives to manage climate change-induced water shortages Project

Request for Proposal

Re-Advertisement: Local Consultant for Building the Capacity of the Water and Sanitation Sector (GCF project)

*As there was not adequate level of responsiveness by the deadline in the previous announcement, Ref No: (IUL)438-GCF/438/2018/181 dated 26th June 2018, we would like to cancel the previous announcement and re-invite interested eligible **consultants** to submit their Proposals*

The Government of Maldives has received a grant from Green Climate Fund (GCF) for the project “Supporting vulnerable communities in Maldives to manage climate change-induced water shortages”, which is being jointly implemented by the Government of Maldives and UNDP. through this project safe and adequate water supply systems will be developed in 49 islands by means Integrated Water Supply Network and Rainwater Harvesting Systems. Apart from the infrastructure components, the project also focuses on strengthening the water and sanitation sector through trainings, capacity building, awareness, research and education.

In this regard, that the Ministry of Environment and Energy through the Green Climate Fund project “Support vulnerable communities in Maldives to manage climate change-induced water shortages” would like to seek the assistance of an individual competent Consultant to develop a comprehensive capacity building plan for the water sector in line with the National Water and Sanitation Policy (NWSP).

To be eligible for the position the individual is expected to demonstrate the following:

Education

A master’s degree in human resource development or teaching or international development or any other relevant discipline with focus on institutional capacity building or sustainable development.

Experience:

- Minimum, 5 years of relevant experience in training or management of development projects on institutional capacity building.
